

Certificate of constancy of performance **0063-CPR-0217357-1**

Issued 2024-05-01 Replaces

First issued 2024-05-01 Page 1 of 3

In compliance with Regulation 305/2011/EU of the European Parliament and of the Council of 9 March 2011 (the Construction Products Regulation or CPR), this certificate applies to the construction product

Underground fire hydrants

Type and intended use: EN 14339: Underground fire hydrants

Level / Class: Not applicable

Method of declaration: EN 14339: Underground fire hydrants

Other Characteristics: Described on page 2

placed on the market under the name or trademark of

Torshälla Industrisvets AB

and produced in the manufacturing plant

Torshälla Industrisvets AB, Torshälla, Sweden

This certificate attests that all provisions concerning the assessment and verification of constancy of performance described in Annex ZA of the standards

EN 14339:2005

Under system 1 for the performances set out in this certificate are applied and that the factory production control conducted by the manufacturer is assessed to ensure the constancy of performance of the construction product.

This certificate was first issued on 1 May 2024 and will remain valid as long as the test methods and/or factory production control requirements included in the harmonised standard, used to assess the performances of the declared essential characteristics, do not change, and the construction product and the manufacturing conditions in the plant or the factory production control itself are not modified.

Ron Scheepers Managing director

Marking

Compulsory specifications:

EN 14339, underground hydrants

- Indication of direction of opening;
- Number of turns required to start the flow and for full opening;
- Indication of DN;
- Indication of PN;
- Name or logo of the manufacturer;
- Date or code indicating the year of production;
- Reference to the applicable standard (EN 14339);
- Loose obturator (if applicable).

Method of marking:

- Non-erasable;
- visible after assembly.

APPLICATION AND USE

Application and use

The hydrants are intended for drinking water installations with a maximum working pressure of 1000 kPa and a maximum water temperature of 30°C.

RECOMMENDATIONS FOR CUSTOMERS

Check at the time of delivery whether:

- the supplier has delivered in accordance with the agreement;
- the mark and the marking method are correct;
- the products show no visible defects as a result of transport etc.

If you should reject a product on the basis of the above, please contact:

- Torshälla Industrisvets AB
- and, if necessary,
- Kiwa Nederland B.V.

Consult the supplier's processing guidelines for the proper storage and transport methods.
